rath's  
Skin Cleansing

Mild Skin Cleanser  
for light soiling and the entire body

## rath's prClean Skin Cleanser

### PRODUCT DESCRIPTION

Mild skin cleanser for the hands and the entire body. For light soiling, also for taking showers. Containing a combination of surfactants especially gentle to the skin, highly re-greasing.

Fluid, moderately viscous, soap less, skin neutral pH-value, re-moisturizing.

Available lightly perfumed or unperfumed (only in 1-litre-bottles).

### FIELD OF APPLICATION

For lightly soiling in industry, hand crafts and trades, administration and offices.

### FUNCTION

Good cleansing properties while at the same time excellent skin compatibility. Support of gentle skin-preserving effects through skin caring and re-greasing components.

### USAGE AND DOSAGE

After work, apply prClean to dry or moist skin and levigate with the gradual addition of water. Afterwards rinse with lots of water and dry thoroughly.

### SIZES AVAILABLE

1 litre bottles  
2 litre soft bottles  
5 litre canisters

### DOSING AIDS

Please refer to pr-Dispenser leaflet

## TECHNICAL DATA

Washing-active substance content (WAS): 19 %

Density: approx. 1,03 g/cm<sup>3</sup>

pH-value: approx. 6,5

## PRODUCT INFORMATION

prClean contains a twice-tested combination of surfactants especially kind to the skin with excellent dermatological properties.

The product cleans sensitive, severely stressed skin efficiently, but gently.

This result is achieved by a well-balanced combination of high quality raw materials.

Skin caring substances provide a very good re-greasing. They have a regulating effect on the water balance of the skin and thus prevent dehydration.

The pH-value is adapted to the acid protective layer of the skin.

prClean is provided with a light, discreet scent and a slight conservation.

## SKIN COMPATIBILITY

Dermatest GmbH, Company for Allergological Research, D-48155 Münster

prClean has been certified a very good skin compatibility based on a dermatological test on human beings.

No allergic or toxic-irritative reactions of incompatibility occurred during the patch test in accordance with international guidelines.

prClean was tested deluted (1%, 2% and 5% in Aqua dest.) and undeluted.

## INGREDIENTS (INCI)

Aqua, Sodium Laureth Sulfate, Cocamidopropyl Betaine, Sodium Chloride, Sodium Lauroyl Glutamate, Cocamide DEA, PEG-9 Cocoglycerides, Benzyl Alcohol, Methylchlorisothiazolinone, Methylisothiazolinone, Citric Acid, (Parfum).

Note: The product is also available without perfume.

## ENVIRONMENT

The surfactants contained in prClean are biodegradable to at least 90 % according to the requirements of the European surfactants' ordinance regulating the law concerning washing and cleansing agents.

## SAFETY AND REGULATIONS

In Europe, prClean is subject to the EU-cosmetics directive 76/768/EWG.

Its realisation in Germany is subject to the regulations of the German Food and Consumables Act and the Cosmetics Directive.

prClean is not subject to any transport regulations in the meaning of the transport of dangerous goods.

## STORAGE

prClean should be stored in closed containers at room temperature. Under these conditions the minimum shelf life amounts to 30 months.
