

## PRODUCT INFORMATION

- rath's pr88 liquid protects the skin against oily, greasy and tough, stubborn dirt
- Apply to the hands before starting work. The fluid forms a reliable protective film that prevents dirt particles from penetrating the skin
- rath's pr88 liquid makes it easier to cleanse the skin. The dirt is simply washed off with the protective film

**rath's  
pr88 liquid**  
Hand protection  
that you simply wash off

### Application range

Oily and greasy areas  
Tough, stubborn dirt

rath's pr88 liquid protects the skin against dirt from oil, grease, paint, graphite, rust, dust, tar, adhesives, artificial resin, polyester, silicone etc.

### Application and dosage

#### Rubbing in

Carefully rub approx. 1 ml of rath's pr88 liquid into the hands - particularly into the fingernails and nail beds - before work, and leave to dry.

#### At work

A dry, stretchy protective film, that still allows good grip, protects the skin against dirt.

#### Washing off

After work, wash the hands by gradually adding water until the dirt loosens. Then rinse thoroughly and dry. The dirt is rinsed off together with the rath's pr88.

## ADVANTAGES

### Also ideal for mobile use

- Simple application
- Very short drying time
- Non-sticky
- Good tool grip
- Dexterity is maintained
- No silicone
- High protection potential during work
- Facilitates skin cleansing
- No perfumes, silicones or preservatives
- Very good skin compatibility - dermatologically tested

## pr88 liquid

Skin protection lotion

### Proof of effectiveness

Verification of the efficacy against lipophilic toxicants in the BUS skin protection test.

**Tested by:** Dr Pittermann in collaboration with the Institut für Pharmakologie, Toxikologie und Pharmazie der Tierärztlichen Hochschule (Institute for Pharmacology, Toxicology and Pharmacy of the Veterinary University, Hanover) (Prof. Dr M. Kietzmann).

**Result:** The effective protective performance of rath's pr88 liquid was verified through the single and multiple application of the model toxicants n-octane and the non-water-miscible model-cooling lubricant (KSS) Type II and Type III.

### Skin compatibility

**Tested by:** Dermatest GmbH – Research Institute For Reliable Results, Muenster.

**Result:** rath's pr88 liquid passed the dermatological inspections on humans conducted by specialist doctors with a "very good". No toxic-irritant incompatibility reactions occurred in the epidermal test according to international guidelines.
